#### **Accumulation of yellow cards:**

- If a player accumulates three (3) yellow cards in different matches starting in Round One until the Quarter finals (inclusive), the player will be suspended for one (1) match due to the accumulation of yellow cards. It is explicitly stated that a double yellow card in the same match resulting in a red card nullifies the second yellow card for the purposes of accumulation, meaning that only the first yellow card will count towards accumulation. In case of a yellow card and then a straight red card in the same match, the yellow card will not be nullified under any circumstances.
