- Goal height: 2m
- Goal width: 6m

Technical areas:

- **Two parts:** with a break after the first 20 minutes
- **Break between parts:** Approximately 3 minutes
- **No additional time**

2.2 Clock management

The clock shall not be stopped except for:

- Medical assistance only when medical staff is called by the referee. The referee will always be the individual who decides on calling the medical staff
- VAR or referee table reviews (when appropriate)
- Secret card or president penalty execution
- Referee's discretion for time-wasting

2.3 End of period

The referee signals the end by whistle, regardless of any graphics or sound effects previously activated.

3. MATCH PHASES

3.1 First five minutes (ramp-up phase)

3.1.1 Progressive format

- **Minute 0-1:** 1v1 with goalkeeper
- **Minute 1-2:** 2v2 with goalkeeper
- **Minute 2-3:** 3v3 with goalkeeper
- **Minute 3-4:** 4v4 with goalkeeper
- **Minute 4-5:** 5v5 with goalkeeper
- **Minute 5+:** 7v7 (full teams)

3.1.2 Clock management during ramp-up

Clock runs without interruptions except for:

- VAR or referee's table reviews
- Penalties
- Injuries or cards
- Referee's discretion for time-wasting or fouls

3.1.3 Ramp-up rules

Kick-off: Cage kick-off (1v1 race from goal line)

- Players race for ball once countdown over and traffic lights turn off
- If not done correctly, possession awarded to opposing team with centre kick
- Players may go forwards or backwards from centre line

Goalkeeper restrictions:

- May leave penalty area during ramp-up to act as field player
- Must maintain at least one goalkeeper on field throughout escalation
- Mandatory to start match with 1 goalkeeper on field

Backfield violation:

- Enforceable from minute 0-1
- Once a player exits their own half, they cannot pass or dribble back into their own half (from the attacking black zone to the defensive black zone)

- Exception: does not apply to throw-ins
- Own half defined as area bounded by grey zone of changing lanes and centre circle
- In the event of infringement, play is restarted with an indirect free kick from substitution lane zone
- Defender must remain in own half and cannot occupy grey zone of changing lanes and centre circle until ball is received by attacking player. Violation results in indirect free kick from receiving point

Throw-ins:

- Applicable from 0-1 minutes
- Defender must remain in own half and cannot occupy grey zone of changing lanes and centre circle until ball is received by attacking player
- Violation results in indirect free kick from receiving point

Passive play:

- Referee may signal 10-second warning for deliberate time-wasting
- If not completed within 10 seconds, possession awarded to opposition via goal kick

Sanctions during ramp-up:

- Sanctions and player exclusions (inferiorities) apply from minute 1:00 onwards
- A team can never have fewer than two players on the field. If such situation should occur, due to game situations (multiple sanctions), it will be resolved by not allowing the next player to enter during the corresponding entry turns to the field

Special scenarios for sanctioned players:

- **Player yellow card:** If a suspension ends before minute 5:00, the same player must re-enter to continue playing
- **Wrong player re-entry:** Yellow card for incorrect player entering, must bring back proper player
- **Goalkeeper yellow card:** Must wait until minute 5:00 to re-enter (cannot have two goalkeepers)
- **Exception:** If substitute goalkeeper injured and sanction time over, original may return early

Substitution rules:

- Player substitutions not allowed except for described situations
- After each minute (1, 2, 3, 4, 5), one player from each team enters through substitution lane
- **Injured player leaving field:** If substituted, cannot return to match until the start of the competition dice onwards; if not substituted, team plays with one less player until return
- **Critical:** If substituted injured player returns to participate, they will be immediately expelled. If referee doesn't notice and it continues, match may be contested, and offending team may lose points for improper player alignment

Goalkeeper-player transitions:

- If goalkeeper sanctioned and replaced by player-goalkeeper, original goalkeeper waits until minute 5:00
- Once goalkeeper returns, player-goalkeeper changes to regular kit and may re-enter as field player
- Player who left for goalkeeper-player may re-enter from minute 5:00

Early entry penalties:

- Player entering before designated time receives yellow card if participating in game
- If not participating, play stopped with indirect free kick in substitute's lane, player exits and re-enters properly
- In 1v1 with goalkeeper, improper substitutions penalized per specific section rules (see section 5.1)

3.2 Double goal phase (Minute 17)

3.2.1 Activation

- 10-second countdown begins at minute 16:50 which signals the final 10 seconds of the regular match
- The double goal phase begins at 17:00 with a kick-off for the team who did not have first possession at the start of the match (which is not necessarily the team who touches the ball first)
- All goals count as double from minute 17:00 until the break of the match

3.3 Competition dice (Minute 20)

3.3.1 Activation

- The second part of the game (post-break) starts after a 20-second countdown
- Game restarts at minute 20:00 and the dice phase lasts for 3 minutes, until 23:00

3.3.2 Transition back to regular match

- A 10-second countdown starts at 22:50
- At minute 23:00 the game will be stopped so that the remaining players can enter until it is 7v7 unless there is an applicable exclusion. In this case, the correct number of players will enter
- The regular match is restarted with a kick-off for the team who did not have first possession at the start of the dice phase (which is not necessarily the team who touches the ball first)

3.3.3 Dice outcomes

Six-sided dice determine playing format:

- **Two faces:** 3v3
- **Two faces:** 2v2
- **Two faces:** 1v1 with goalkeeper

3.3.4 Dice phase rules

- Teams adjust player numbers immediately after dice result revealed
- Coaches must remove corresponding players without delay before referee restarts game
- 20-second positioning period before cage drop (players position anywhere on field, including opponent's half)
- Game clock starts when first player touches ball in centre circle
- Active sanctions become inactive during dice; timing restarts at the beginning of the post dice phase (minute 23:00)

- New sanctions apply immediately (if 3v3 becomes 3v2) and continue at the beginning of the post dice phase (minute 23) if the time has not expired
- If team has only two players (2v2 and 1v1 with goalkeeper) and receives yellow/red card, suspension begins at the start of post dice phase. If the player received a yellow card, they can continue playing thereafter
- No goalkeeper required except in 1v1 format
- There is passive play (see section 3.1.3)

3.3.5 Special rules for 1v1 with goalkeeper

- Goalkeeper cannot touch ball outside their own half of the field (the defensive black zone) (yellow card + substitution + shootout + 2-minute penalty at the beginning of the post dice phase)
- If goalkeeper sent off with red card: must be substituted, 5-minute penalty (inferiority) served at the beginning of the post dice phase
- Field player may use entire pitch
- Backfield violation applies (see section 3.1.3) and in the event of an infringement, play is restarted with an indirect free kick from substitution lane zone in favour of the non-offending team
- Back passing violation results in penalty shootout
- Playing in dangerous manner results in penalty shootout
- All fouls anywhere on field (except inside penalty area) result in penalty shootout
- **1v1 penalty and shootout completion:** Penalties and penalty shootouts taken shall end in either a goal or a goal kick only. If no goal scored, restart with goal kick for the defensive team
- **Defending player positioning:** During penalty shootouts, defending player must be behind the offside line. During penalties, defending player must be behind halfway line
- **No second plays:** Both penalties and penalty shootouts played without second plays (secret card style). Restart indicated by referee whistle

Restarts:

- If the ball leaves the field of play, possession is awarded to the team that did not last touch it
- All restarts that would normally be awarded as a corner kick or throw-in in the attacking half (black attacking zone) will be restarted with a throw-in from the substitution lane area.
- All throw-ins in the defensive half of the pitch (defensive black zone) shall be awarded as such from the same position where the ball left the pitch.
- For throw-ins, the same procedure shall apply as for ramp-up (see section 3.1.3 Throw-ins).

Incorrect restarts:

- Referee stops game, asks team to restart properly
- If repeated, possession awarded to opposing team via same restart

Improper substitutions:

- **Attacking team player enters incorrectly:** Referee stops game, awards possession to opposing team via an indirect free kick from substitution lane zone
- **Defending team player enters and interferes:** Yellow card, game restarted with penalty shootout for attacking team
- **Defending team player enters without interference:** Game continues without sanctions

Goalkeeper leaving area without ball contact:

- If goalkeeper leaves their own half of the field (defensive black area) without touching ball and attacker finishes play, no sanction applied
- Restart depends on outcome (goal kick, centre kick or thrown-in)

3.3.6 Sanctions during dice phase – Detailed scenarios

Yellow card scenarios:

Player yellow card: 2-minute suspension, team plays with numerical disadvantage (except for 2v2 and 1v1 with goalkeeper, in which case the player can continue playing and would serve the sanction at the beginning of the post dice phase (minute 23))

Goalkeeper yellow card: 2-minute suspension, must be replaced by a goalkeeper or a substitute player (except for 2v2 and 1v1 with goalkeeper, in which case the goalkeeper can continue to play and would serve the sanction at the beginning of the post dice phase (minute 23)). However, if in the 1v1 with goalkeeper scenario goalkeeper touches the ball outside the penalty area, the player must also be replaced immediately

Player already serving exclusion receives another yellow: Results in red card (consequent red), 5-minute total penalty (inferiority) for their team (except for 2v2 and 1v1 with goalkeeper, in which case the player may be substituted and subsequently starting inferiority for their team in the post dice phase (minute 23))

Player already serving exclusion received direct red card: 5-minute penalty (inferiority) from time of red card (except for 2v2 and 1v1 with goalkeeper, in which case the player may be substituted and subsequently starting the inferiority for their team in the post dice phase (minute 23))

Red card scenarios:

Direct red card: 5-minute penalty, player ejected from match

Double yellow, red card: 5-minute penalty, player ejected from match

In both above cases, the same rules apply as explained above in the yellow card scenarios

Timings: All sanctions in 3v3 dice scenarios continue into the post dice phase of the game if time doesn't expire during dice phase. In situations of 2v2 and 1v1 with goalkeeper, sanctions will be applied in full at the beginning of the post dice phase (minute 23)

3.4 Match ball / Shootouts (Minute 36)

3.4.1 Activation

- 10-second countdown begins at minute 35:50 which signals the final 10 seconds of the regular match
- There will be a 20-second countdown which signals the first 20 seconds before the start of the match ball phase at minute 36:00
- The same shot completion rules apply as in the 17th, 20th and 23rd minute transitions

3.4.2 Transition to the match ball / shootout phase

- If there is a tie at minute 36:00, a penalty shootout will be held (see 9.2 Penalty shootouts (tie-breaker format))
- If a team is winning in the match at 36:00, the leading team must only score one more goal to win the match. On the other hand, the losing team also has an opportunity to win the match if they can come back and score one more goal than the opponent in the overall scoreline

3.4.3 Regressive format

- **Minute 36:** 5v5
- **1-minute countdown (next stoppage):** 4v4
- **1-minute countdown (next stoppage):** 3v3
- **1-minute countdown (next stoppage):** 1v1 with goalkeeper (as in the Dice)
- **1-minute countdown (no need to wait for stoppage):** 2v2 (no mandatory goalkeeper)
- **Exception:** If during 3v3 situation there's an indirect free kick to be taken inside the box and the countdown reaches 0, teams will not remove players until the next stoppage of the game and the indirect free kick will be taken with same game situation.

3.4.4 Match ball phase rules

- Coaches must remove the appropriate players without delay before the referee resumes the match
- A 20-second positioning period before the ball falls from the cage (players position themselves anywhere on the field, including the opposing half of the field)
- The match timer starts when he first player touches the ball in the circle centre
- The sanctions active before the start of the match ball phase remain active during this phase. The time resumes at the beginning of the match ball phase and applies only until the 3v3 (3v2) station as a maximum, with no team having less than 2 players on the field
- No goalkeeper required, except in the 1v1 with goalkeeper format
- There is passive play enforced (see section 3.1.3)

3.4.5 Special rules for 1v1 with goalkeeper

- Following the conclusion of the one-minute countdown (at the next stoppage) during the 3v3 and transition into 1v1 with goalkeeper, the goalkeeper cannot touch the ball outside their own half of the field (the defensive black zone). In the event of an infringement, it will be a yellow card to the goalkeeper + substitution + shootout
- Field player may use entire pitch
- Backfield violation applies (see section 3.1.3) and in the event of an infringement, play is restarted with an indirect free kick from substitution lane zone in favour of the non-offending team
- Back passing violation results in penalty shootout
- Playing in dangerous manner results in penalty shootout
- All fouls anywhere on field (except inside penalty area) result in penalty shootout
- **1v1 penalty and shootout completion:** Penalties and penalty shootouts taken shall end in either a goal or a goal kick only. If no goal scored, restart with goal kick for the defensive team
- **Defending player positioning:** During penalty shootouts, defending player must be behind the offside line. During penalties, defending player must be behind halfway line
- **No second plays:** Both penalties and penalty shootouts played without second plays (secret card style). Restart indicated by referee whistle
- A further one-minute countdown will begin and at the conclusion of this (without stoppage needed), the goalkeeper can move and touch the ball across the entire field or be substituted by a player (same rules as minute 0-1 of the ramp-up phase, but with no goalkeeper needed)

Restarts:

- If the ball leaves the field of play, possession is awarded to the team that did not last touch it
- All restarts that would normally be awarded as a corner kick or throw-in in the attacking half (black attacking zone) will be restarted with a throw-in from the substitution lane area.
- All throw-ins in the defensive half of the pitch (defensive black zone) shall be awarded as such from the same position where the ball left the pitch.
- For throw-ins, the same procedure shall apply as for ramp-up (see section 3.1.3 Throw-ins).

Incorrect restarts:

- Referee stops game, asks team to restart properly
- If repeated, possession awarded to opposing team via same restart

Goalkeeper leaving own half of the field (the defensive black zone) without ball contact:

- In the 1v1 situation, if goalkeeper leaves their own half of the field (defensive black area) without touching the ball and attacker finishes play, no sanction applied
- Restart depends on outcome (goal kick, centre kick or thrown-in)

3.5 Multiple sanctions at match start

If team begins match with one or more players serving sanctions:

- If a team has a sanction prior to the match of playing with one player less during one (or more) minute(s) as of minute 5:00, the 7th player supposed to enter at minute 05:00 will not do it until reaching the minute(s) of the sanction that the team has to serve
